

Pureair Filter Co.

FIBRE GLASS FILTER MEDIA

APPLICATION

Mainly used in **spray booths** and in high-quality paint mist filtration for surface coating applications, this filter media offers a high particle capture rate and long service life. The green air-entry side has excellent compressibility, ensuring stability, resilience, and effective retention of paint mist and dust.

This product is made from continuous monofilament glass fibre and is progressively densified from the air-entry side to the air-exit side.

THICKNESS	25MM
ROLL LENGHT	20M
WIDTH	1.2M
COLOUR	Green & White

Unit2, Gamib Park, 41 Stella Road, Montague Gardens, 7441
